## **WARRANTY**

Farmco Manufacturing provides a 1 YEAR WARRANTY on all horse feeding equipment. In the event that your feeder ships with defective parts, we will replace them FREE OF CHARGE.

## **MANUFACTURING INTEGRITY**

Since 1985 Farmco horse feeders have been manufactured in Lancaster County, Pennsylvania, an area rich in farming and agricultural pride. Ranchers and equestrians nationwide bear testimony to the rugged built, friendly features of Farmco feeders.

Heavy gauge metal, high-quality welds, strategically placed reinforcements along with a two-component, high gloss, rust inhibitive paint are just some of the quality features Farmco offers.

## **EQUIPMENT INVENTORY**

Farmco stocks most products year-round for immediate shipment.

## **HAY FEEDING SOLUTIONS**

## Introducing the **NEW HF SERIES!**

Would you like to customize your own horse feeder? Well, now you can! With our NEW HF Series line, you're able to customize everything from the trough size to additional add-ons like a ball toy, grain trough, bale roller, or attachable hay net. We also understand that slow feeding is the healthiest way to feed your horses. That's why we also give you the option to add slow-feed net panels onto the feeding sides of your feeder. Most importantly, these horse feeders are tough and built for rough farm use.

1

## CHOOSE YOUR FEEDER STYLE

Choose between the standard style with open feeding sides, or choose the slow feed style with netting panels.

STANDARD

SLOW FEED

**Please note:**

The slow feed style is constructed with 2 solid ends. As a result, 2-sided feeding is the only option available on slow feeders.

2

## CHOOSE YOUR TROUGH SIZE

Begin building your feeder by selecting your trough size. The three available options are 6', 8' and 10' lengths.

6' TROUGH

8' TROUGH

10' TROUGH

3

## CHOOSE YOUR NUMBER OF SIDES

If you chose the standard style in step 2, you must now choose whether your feeder will have 3-sided or 4-sided feeding.

3-SIDED FEEDING

4-SIDED FEEDING

4

## CHOOSE YOUR CUSTOM ADD-ONS

Now that you have your feeder size, style, and sides chosen, it's time to choose your custom add-on options!

HAY NET ATTACHMENT

BALE ROLLER

And we even have some other options, like a ball toy, grain trough attachment, and more. To see the full feeder building experience, scan the QR code at right!
